

Denis Dechandon has over 20 years' experience in translation and linguistics, in office automation and in various management roles. After getting acquainted with the translation work and its requirements at EU level, he fully committed himself to the definition and implementation of various processes and workflows to provide a better support to linguists and to streamline the working of support teams.

Denis is in charge of a service dedicated to the linguistic and technical support provided to translators, revisers, editors, captioners and subtitlers (i.a. CAT, corpus management, formatting and layouting, machine translation and terminology) and to the maintenance and enhancement of tools and linguistic resources at the Translation Centre for the Bodies of the European Union.

Committed to further changes and evolutions in these fields, Denis took over the role of IATE Tool Manager in May 2015.

Denis Dechandon

Head, Language and Technology Support Section
IATE Tool Manager
Translation Support Department
